PATIENT INFORMATION AND CONSENT TO DATA PROTECTION

Dear Patient,

The protection of your personal data is important to us. According to the basic EU data protection regulation (GDPR), we are obliged to inform you about the purpose for which our doctor's office collects stores or forwards data. The information also tells you what rights you have in terms of data protection.

Purpose of data processing

Data processing is carried out on the basis of legal requirements in order to fulfill the treatment contract between you and your doctor and the associated obligations.

For this purpose, we process your personal data, in particular your health data. This includes anamneses, diagnoses, therapy suggestions and findings that we or other doctors collect. For these purposes, other doctors or psychotherapists with whom you are receiving treatment may also provide us with data (e.g. in doctor's letters).

The collection of health data is a prerequisite for your treatment. If the necessary information is not provided, thorough treatment cannot take place.

Recipients of your data

We only transfer your personal data to third parties if this is permitted by law or you have consented.

Recipients of your personal data may primarily be other physicians / psychotherapists, associations of panel doctors, health insurance companies, the medical service of the health insurance, medical associations and private medical clearing offices as well as cooperating laboratories.

The transmission is mainly for the purpose of billing for the services provided to you, for clarifying medical questions and questions arising from your insurance relationship. In individual cases, data may be transferred to other authorized recipients.

Storage of your data

We keep your personal data only as long as it is necessary for the performance of the treatment.

Due to legal requirements, we are obligated to keep this data for at least 10 years after completion of the treatment. According to other regulations, longer retention periods may apply, for example 30 years for X-ray records in accordance with Section 28 (3) of the X-ray Ordinance.

Your rights

You have the right to obtain information about the personal data concerning you. You may also request the correction of incorrect data.

In addition, under certain conditions, you have the right to delete data, the right to restrict data processing and the right to data portability.

Legal basis

The legal basis for processing your data is Article 9(2)(h) DSGVO in conjunction with Section 22(1)(1)(b) of the German Federal Data Protection Act. If you have any questions, please feel free to contact us.
